

UNDERWOODS

Electrical Enclosure Solutions

Since 1999, ETA has been setting the pace in the UK Enclosures market offering market leading products and exceptional customer service. This is clear in our commitment with leading automation suppliers UNDERWOODS Electrical Limited. From our 20000 sq Feet logistics centre we have over 10000 stock items ready for immediate delivery.

As well as our standard programme of enclosures, we also offer a machining service allowing holes, cut-outs and special paint colours in short lead times and prices that resemble standard products. Our business has grown significantly over the years, be part of it and experience the difference between our competitors and a forward thinking organisation always striving to be the best.

A complete range of wall-mount Boxes offering the very best in style and protection with over 50 standard sizes including single door, double door and glazed door variations. Complete with mounting plates and gland plates with a single part number. A host of standard accessories are available offering a complete system.

Machining service available for this product.

A complete range of Stainless Steel boxes in grade 304L Material [316L on request] offered in over 22 standard sizes including single door, double door and glazed door variations. Complete with Mounting Plate using a single part reference. Standard accessories available.

Machining service available for this product.

ENUX – The new Modular Cabinet from ETA

The new ENUX Modular Cabinet signals the dawn of a new era in Modular Cabinet design that fulfils a wide variety of uses for Industrial Control applications. Built on a rugged frame structure, ENUX Modular Cabinets are available full-assembled or supplied Flat-Pack for ease of space and handling.

Over 90 Frame sizes are available with single door, double door and a stylish Plexi-Glass door option. A key feature of the ENUX Modular Cabinet is the innovative “lever” style latch design offering very high aesthetics and functionality and is colour

matched with the cabinet roof and Plinth base providing a modern clean appearance.

Available with ENUX Modular Cabinets are a host of service offerings to allow greater customisation, flexibility and convenience. ETA’s assemble-to-order programme allows customers to specify the degree of assembly that best suits their needs.

Enclosure painting options and a machining facility further extend the customisation available for this product.

ENUX Modular Cabinets have many new design advances which greatly enhance protection and versatility including:

- Over 90 Frame Sizes
- IP55 NEMA 12 Protection
- Stronger lighter frame profile with Laser welding provides a solid structure
- Innovative latch System offering high aesthetics and functionality
- Fully Assembled or supplied Flat-Pack
- PC Solutions available
- Full Customisation service available

Other Products available from ETA

Desks & Consoles

A full range of free-standing desks are available in both Monobloc and Modular variations. Available in both Mild Steel and Stainless steel.

Fibreglass Enclosures

Offering exceptional quality and available in both plain door and glazed door variations. Offering IP65 Protection and available in 7 standard stock sizes with a host of "Clip-In" accessories.

Terminal Boxes

A full range of small Terminal boxes offered in both Mild Steel and Stainless Steel with and without Gland Plates. Standard mounting rails provided for Din-Rail mounting or optional mounting plates.

Modified Enclosures

When our standard range of enclosures doesn't meet with your application, ETA will work with you in developing a product that best suits your application. Standard ETA products can be machined quickly and cost-effectively using our innovative 3D Software and advanced laser machinery.

PC Cabinet Solutions

A complete range of industrial PC Cabinets for factory floor automation offering pull-out keyboard features and pedestal mount variations.

E-MOX Monobloc Cabinet

ETAs new EMOX product is a one-piece Monobloc cabinet offering optional Modular components to enable direct assembly of all accessories used on it's ENUX Modular cabinet system. This is a direct replacement for the ATB8 Cabinet and will be available to the market in the coming weeks. New design features include a new "Lift style" lock mechanism as used on the ENUX Modular cabinet along with optional profiles to allow total integration with all the Modular cabinet accessories. A new base plate assembly along with a 2-colour paint trim provides a high aesthetic product offering that fits well with Today's high-tech process industry.

User Benefits include:

- › Symmetric Monobloc Structure
- › Innovative Latch System
- › Compatible Accessories with ENUX Modular Cabinet
- › Solid structure for most demanding applications
- › Complete with Mounting Plate

Using ETAs "Assemble-to-order" programme, cabinets can be shipped with pre-fitted accessories and alternative paint colours, plus a machining service providing quick turn-around for holes and cut-outs for push-buttons and filter fan assemblies.

E-COMP Compact Enclosure

E-COMP is the new range of enclosures designed to fill the void between a large wall-mount enclosure and a small free-standing cabinet providing both wall-mount and floor mount capabilities. ECOMP

User Benefits include:

- › Wall-Mount or Free-Standing
- › Innovative Latch System
- › Complete with Mounting Plate
- › Single and Double Door variations

Having the same accessories as the ENUX Modular cabinet provides a cost-effective solution and reduces stock of components.

The EMOX Monobloc cabinet is offered in 27 standard stock sizes with plain door and or Glazed door. Cabinet comes complete with mounting plate and base plate assembly.

EMOX Monobloc cabinet offers an ideal solution for most demanding industries offering IP66 Protection (IP55 For Double Door)

is perfectly compatible with the ENUX and EMOX products thanks to the advanced design, the two-colour paint appearance and innovative "Lift" style locking device. Complete with mounting plate and modular base plate arrangement. Available in 12 standard sizes with single or double door.
