

Remtech

Industrial Electronic Repairs

Remtech is an Underwoods Group company

Remtech have been specialising since 1998 in the repair of Industrial Electronics such as programmable logic controllers, Human machine Interfaces, Drives, Programming equipment, power supplies, Industrial PCs, monitors and PCBs. Remtech's Engineers have advanced repair and measurement equipment available as well as in-house test rigs to ensure a quality repair.

Remtech Industrial Electronic repair centre ensures effective solutions to provide complete support and flexible maintenance. Our service is fast, cost effective and tailored to your evolving needs. This efficient service is part of our commitment to keep your downtime to a minimum, and your automation technologies running to maximum profitability.

PLC Repairs

PLCs we repair include:

- Siemens 6ES5 (S5 90U, 95U, 100U, 115U, 135U, 150U, 155U, 110A, 110S, 130A, 130K, 130W)
- Siemens 6ES7 (S7 200, 300, 400, 1200, 1500)
- Siemens TI 500, 505, 5TI, 530, 560, 565, 6MT, 7MT
- Mitsubishi FX, FX0, A1S, A
- Rockwell SLC500, PLC2, PLC5
- Phoenix: IBS
- Omron
- Other manufacturers available on request

HMI Repairs

HMIs are key to maintain production and allow operators to run machines, any downtime can have extreme cost implications. Remtech can repair and test a vast selection of HMI panels including touch panels. We keep LCD displays, touch panels and keypad membranes in stock for all the common HMIs enabling us to provide a quick turnaround.

Drive Repairs

Remtech test and repair drive systems from various manufacturers and can offer an additional service to reform capacitors where a drive may have been in storage for a long period of time.

We repair: Siemens, ABB, Danfoss, Omron, Lenze, Mitsubishi, Rockwell, Control Techniques, Telemecanique.

Spare Parts

Remtech stock a large variety of obsolete or end of life spares including the complete range of Siemens S5 & S7 PLC, Siemens HMIs and Industrial PCs, Siemens Drives and Simatic TI as well as many other manufacturers products including Mitsubishi, Omron, Phoenix Contact, Rockwell, Control Techniques, Danfoss plus many more.

This enables us to provide either a same day or next day delivery service to customers nationwide. All spares purchased come with 12 months warranty.

Technical Support

We have many years experience in Industrial Automation our technical support team offer help with project planning; advise on system configuration, software assistance and product updates. If you have a breakdown we can assist in getting your system working.

We believe that our support services allow customers to maximise the benefits they enjoy from their investment in control equipment, whilst minimising the risks and problems associated with it.

Technical Support Telephone No. 01638 716087

On-site Support and Preventative Maintenance

Remtech offer an on-site assessment of your systems and can carry out backups of your PLCs and HMIs and advise where preventative maintenance measures can be used to reduce downtime.

Product Testing

Remtech offer a product test service where you may have some items that you do not know the history or condition. We can carry out a full test of these items and repackage them in a sealed box labelled with the product details and the date tested. This gives you the peace of mind that when you come to use this item you know it will work.

Stores Management

Knowing what critical spares to keep and trying to keep the costs down is a difficult challenge. Remtech can do a site survey of your systems and advise where items are obsolete or difficult to obtain. This enables you to make informed decisions and manage the cost of your spares. We can also look at offering a spares service contract where we guarantee to hold items for you.

Please contact us for more details.

Training

Maintaining your staff skill levels is important for any business. Remtech offer a range of training courses:

- Introductory Courses
- Maintenance Courses
- Specialist Courses
- Refresher / Update Courses
